

Statement of Work

Course: CS 457: Computer Networks & Socket Programming

Statement of Work

Student: Benjamin Mooneyham

Date: 09-21-26

Semester: Fall 2026

Game: For this project I will create a game for Battleship. Each game will start with a random roll where the player with the highest number starts the game. A win is determined by who sinks all of the other player's ships first. There is no draw/tie condition.
